Patent Assignment

Moobella LLC, a Delaware limited liability company, with offices at 555 Constitution Drive, Taunton, Massachusetts 02780 (herein referred to as "Assignor") hereby acknowledges that pursuant to the Asset Purchase Agreement by and among Assignor, certain individuals and MooBella Acquisition Corp., a Delaware corporation, with offices at 555 Constitution Drive, Taunton, MA and its successors, assigns and legal representatives (herein referred to as "Assignee"), executed on June 29, 2009 (the "Asset Purchase Agreement"), Assignor sells, assigns, transfers, and sets over unto Assignee:

(1) our entire right, title and interest in, to, and under the patents and patent applications, and any and all inventions, discoveries and applications that are disclosed in these patents and patent applications, for the United States and in all countries, as identified in Schedule A attached to this Patent Assignment (herein referred to as the "Patents"), and including any and all divisional, continuation, continuation-in-part, renewal, reissue, reexamination, revival, extension, and any substitute application based upon the Patents, and any patent and reexamination certificate issuing from any divisional, continuation, continuation-in-part, renewal, reissue, reexamination, revival, extension, and any substitute application based upon the Patents; (2) the full and complete right to file patent applications in the name of the Assignee, its designee, or its designee's election, in all countries of the world, on the aforesaid Patents and any inventions, discoveries and applications disclosed in the Patents; (3) the entire right, title and interest in and to any Letters Patents that may issue thereon in the United States or in any country, and any renewals, revivals, reissues, reexaminations and extensions thereof, and any patents of confirmation, registration and importation of the same; (4) the entire right, title and interest in all Convention and Treaty Rights of all kinds thereon, including without limitation all rights of priority in any country of the world, in and to the Patents and the inventions, discoveries and applications that are disclosed in the Patents; (5) any and all claims, demands, causes of action, damages, and remedies of every kind recoverable at law or in equity or otherwise from any and every party for any and every infringement of the Patents and any Letters Patent that may issue thereon together with the rights to bring and maintain any action for past, present, and future acts of infringements and for the recover of damages and fees in the United States or in any country; and (6) all rights, title, and interest evidenced by or embodied in or connected or related to the foregoing, together with all revisions, enhancements, modifications and derivative works thereof, including without limitation all Intellectual Property Rights therein and documentation related thereto.

Assignor hereby authorizes and requests the competent authorities to grant and to issue any and all Letters Patents that may issue from the Patents in the United States and throughout the world to the Assignee of the entire right, title and interest therein, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment, sale and transfer not been made.

Assignor agrees, at any time, upon the request of the Assignee, to execute and to deliver to the Assignee any additional applications for patents for any of the inventions and discoveries disclosed in the Patents, or any part or parts thereof, and any applications for patents of confirmation, registration and importation based on any Letters Patent issuing on the Patents, and any divisionals, continuations, continuations-in-part, renewals, reissues, reexaminations, revivals, extensions, and any substitute applications based upon the Patents.

Assignor further agrees at any time to execute and to deliver upon request of the Assignee such additional documents, if any, as are necessary or desirable to secure patent protection in the Patents and said inventions, discoveries and applications disclosed in the Patents throughout all countries of the world, and otherwise to do the necessary to give full effect to and to perfect the rights of the Assignee under this Patent Assignment, including the execution, delivery and procurement of any and all further documents evidencing this assignment, transfer and sale as may be necessary or desirable.

Assignor hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into that would conflict with this Patent Assignment.

Assignor further covenants that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to the Patents and any Letters Patents issuing therefrom and legal equivalents thereto as may be known and accessible to Assignor and will testify as to the same in any interference, litigation or proceeding related thereto and will promptly execute and deliver to Assignee or its legal representatives any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce the Patents and any Letters Patents issuing therefrom and said equivalents thereof that may be necessary or desirable to carry out the purposes thereof.

This Patent Assignment is delivered pursuant to the Asset Purchase Agreement and is subject to the conditions, representations, warranties and covenants provided therein. Nothing contained herein shall itself change, amend, extend or alter the terms or conditions of the Asset Purchase Agreement in any manner whatsoever. In the event of any conflict or other difference between the Asset Purchase Agreement and this instrument, the provisions of the Asset Purchase Agreement shall prevail.

All capitalized terms not otherwise defined in this Patent Assignment shall have the same meaning ascribed to them in the Asset Purchase Agreement.
